Retired Naval Officer Prevented from Holding a Civic Office.

EMPLOYMENT OF RETIRED NAVAL OFFICERS.-A retired naval officer was recently appointed to a clerkship in the Civil Service Commission and underwent instruction in the city of Philadelphia to become the district secretary of the commission in that city. The officer, Commander H. C. Poundstone, reported for duty, when a question arose as to the legality of his employment on account of the fact that he was in receipt of a salary amounting to \$2,500 as a retired officer. The law provides that no person holding an office the salary of which is \$2,500 per annum shall hold any other office under the government. An exception is made in the case of retired officers of the army and navy whenever they are elected t public office or whenever the President shall appoint them to office by and with the advice and consent of the Senate.

The Attorney General of the United State holds that Commander Poundstone comes within this prohibition and cannot be employed as was contemplated by the Civil Service Commission. The pay of a retired army or navy officer is considered While they are not actively engaged, they are still subject to the call of duty. The fact that the appointment did not require the action of the Senate brings the case within the exception to the law and the officer has given up the place he had made all preparations to fill.

THE WEATHER REPORT. Official Record and Forecast.-Washington,

Sept. 10.—The disturbance noted in previous reports over the northeastern portion of the Guif of Mexico is moving slowly northeastward, and its centre is apparently directly east of the mouth of the Apalachicota River. During the last twenty-four hours it caused brisk winds and heavy rains over the Florida peninsula and on the Georgia and South Carolina coasts. At Tampa, Fla., the rainfall in the ast three days was 12.60 inches. Storm warnings are displayed on the Atlantic coast from Jacksonville to Wilmington. The weather has been considerably cooler in

the upper take region, the upper Mississippi Valley and the plains states, while warm weather continues in the Ohio Valley, the middle Atlantic states, the middle Mississippi Valley and the Southwest. In addition to the rains caused by the Gulf storm, there were showers in the St. Lawrence Valley, the upper lake region, the middle plains states and the middle Rocky Mountain region.

The pressure has increased considerably over
